### **Message from our Director, Trevor Allen**

Former Director Mark Strickland retired in March of 2017, ending a 10-year tenure of professionalism and commitment to North Carolina’s criminal justice personnel. I know that I speak for so many others in thanking him for his service to our industry.

Building on his success, in 2018 the North Carolina Justice Academy is preparing to launch a new strategic plan. This plan will focus on the overall student training experience here at NCJA. We are striving to make every facet of that experience a positive and rewarding one for you, whether you are here at either of our campuses, or completing an online training course. In order to accomplish this goal, our staff has committed to providing our services the ‘R.I.T.E.’ way. That acronym represents our commitment to every aspect of our service, which we strive to make Relevant, Innovative, Timely, and Engaging. From curriculum development to residence hall management, our goal is to provide each individual we serve with the best possible experience.

The primary focus for our training here at NCJA is research. Our instructional staff has been tasked with developing curricula, both basic and advanced, based on the most current and relevant industry research. Our goal is to ensure that you are provided with valuable training which will enhance both your career, and your agency’s service delivery. We welcome your feedback on our efforts in this regard, and welcome you to follow us via our website, as well as Facebook, and Twitter. More importantly, come see us in person at either campus!
